## T A B L E

O F T H E

## SUN'S RISING AND SETTING.

\* \* The Use of the within Table is too obvious to require an Explanation. The Latitude of the Place must be found in the Map opposite to the Title Page. Observe, that by Reason of the Refraction, the Sun appears to be much higher than it really is; so that if the rising and setting be reckoned from the Time when the Body of Sun is quite above the Horizon, it will be nearest the Truth.

1891
